Work Completed & Tests

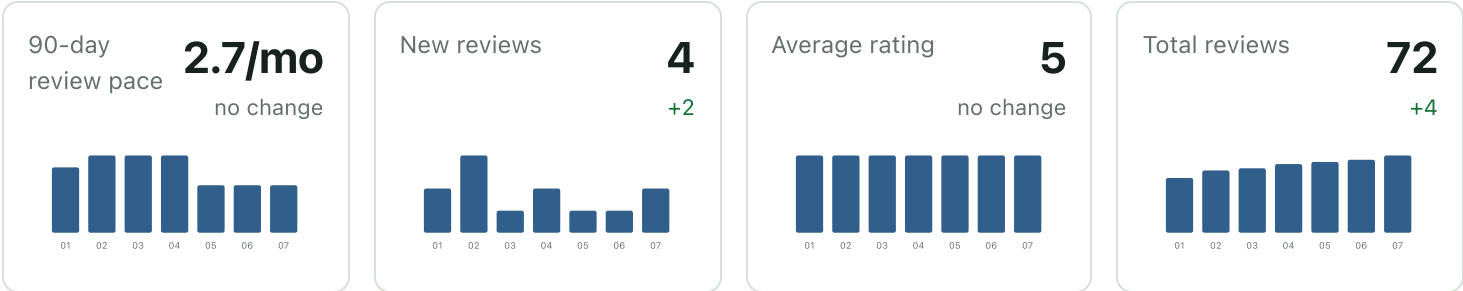

Recent Changes

- Updated homepage and services page descriptions/intro copy to better reflect the services already earning impressions, emphasized data recovery and hard drive help, and corrected Lexington schema URLs to the canonical .pro domain.

Tests in Progress

- Clearer service and location relevance should help non-branded repair searches convert more impressions into clicks while preserving existing strong local rankings for computer and laptop repair.

Google Reviews

A steady flow of recent, positive reviews strengthens the local prominence signals Google uses when recommending nearby businesses.
